Gas blending

Eurogas - May 11th, 2021

Artificial Intelligence Software that understands and optimizes complex networks

Geert Meulenbelt

Export Manager

geert.Meulenbelt@dcbrian.com

Carbon neutrality objectives create complexity

- ✓ Biomethane and Hydrogen **blending**
- ✓ **Dynamic** and local inflows
- ✓ Energy **traceability** requirements
- ✓ **Sector integration**

Gas blending use cases with Digital Network Twin
